

## Strawberries

By Ethan Pickens

Please come to my strawberry party! It's going to be really good! The strawberries are fresh from the kid's garden. It is under the play fort in our backyard. I picked the strawberries for the party just yesterday.

All of the things that we are going to eat have strawberries in them. They are colorful and fun. The first dish is strawberries & yogurt. You put plain yogurt in a bowl & sprinkle some sugar on it. Then you cut up strawberries and sprinkle them on top. Then you eat it!!!!!!!!!!!!!!!

Yum!!!!!! Yum!!!!!!

Next we are having strawberry shortcake. You take some cake and mash up some strawberries and put them on the cake. You top it off with some whipped cream. Take a fork, put it in the cake, and eat it.

The drink is going to be a strawberry smoothie!!!!!!!!!!!!!! I made the smoothie myself. I put some apple juice, yogurt and strawberries into a mixer and blended it up. I pour it into a cup and drink it with a straw. It's super delicious. It's like you are in dream world!!!!!!!!!!!!!!

Now we are going to have dessert. We are going to take the leaves off the strawberry first. Then we have a fondue pot with

melted chocolate in it. You put poker stick into the strawberry, dip it in chocolate. Then put it on a pan and let it dry, then eat!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Strawberries are super good and they are really healthy too!!!!!! They have vitamin c. If you eat 2 servings of them every day you will not get sick. You won't get wrinkles in your skin as you get older. Strawberries help your eyes. Strawberries can help you not get cancer and help with your heart health.

Strawberries are really, really good.

You should come to my party and try them!!!!
